twentyfive.7
Kota Kemuning

When we create a place, we create a personality

What makes a place unique?

It's really about mindful planning.

It's about breaking away from the monotony of conventional design, and creating inspiring spaces that seamlessly blend the indoors with the outdoors.

A place where you can reconnect with people,
with nature or even just with yourself.

A place where you'll experience a real difference
and want to be a part of it.

A town is community.

Life at twentyfive.7 is more than just about beautifully crafted homes, it's about the community that will call this place home.

That's why when we designed this town, we thought of not just the home place.

We also thought of the park place, work place, gathering place, play place, shopping place and eating place. We focus on creating living spaces that bring the community here closer together.

When people move in, they will get a feel for the place and want to call it home.

PARK FEATURES

When we get the places right, the town works.

In our masterplan for this 257-acre township, we looked at the land and the best ways to enhance it. We were mindful to ensure that the community here will have life's essentials close to home while being embraced by nature's beauty. So, we created The Quayside, a lifestyle waterfront hub that is designed to be the new vibrant pulse of the community. A trendsetting lifestyle destination that is set to make twentyfive.7 the most desirable residential address in Kota Kemuning and beyond.

Discover a unique community.

When we designed LUXURA homes, we looked at how we could build homes that enable people to better connect with one another, with nature and with themselves. These designer link villas do not conform to conventional designs. Instead of the usual backlane, you'll find a lush linear garden where you can take a break and catch up with the neighbours.

CENTRAL PARK

This 1-acre lush park with scenic views, play areas and gathering spaces offers an idyllic setting where you can bond with family and the community.

COMMUNITY FARM

A green space for residents to grow their own herbs and vegetables as part of a wellness initiative to promote sustainable living in our community.

A SECURE HAVEN

We have masterplanned this community with your safety & security in mind. From the 24-hour guardhouse to the cul-de-sac streets that reduce traffic and enhance walkability on our promenades, we strive to create an environment that gives you peace of mind.

Welcome home.

We created these designer link villas for those who are seeking homes that suit their personality. With multi-façade designs that are the first-of-its-kind in Malaysia, you can select a home that best suits your lifestyle. With unique features such as a rooftop deck with breathtaking views of the lake here, you will discover a lifestyle that is truly above the rest.

A home that stands the test of time.

When we think of the home place, we think of the many generations that will build memories here. So, we designed these homes with 2 or 3 storey open plan layouts that have versatile living spaces. From the luxuriously designed double volume dining space to the private family area upstairs, LUXURA homes cater to the needs of growing families.

Reconnect with nature.

When we planned these homes, we looked at how we could seamlessly blend indoor with outdoor living spaces. From the serene private gardens to the breathtaking lake views, the homes here allow you to reconnect with nature or even just yourself. Immerse into your private sanctuary and savour the comfort & luxury of space of your new LUXURA home.
