Making a good and vibrant town

A town can mean so many different things. What is foremost is a town has to be about special places and good placemaking.

When we create great gathering places, when we lay out the parks and lakes that open up to each neighbourhood, when we apply architecture and craft beautiful streetscapes, we start to develop a personality for that town.

When people begin to move in, they will experience a real difference. They'll get a feel for the place and want to be a part of it.
